

Remarks

The specification paragraphs 0002, 0003, 0004, 0006, 0029, 0030, 0035 and 0036 have been amended to correct some minor grammer errors and identification numbers to correspond with the drawings.

Claim 5 has been amended by adding a with respect to a "third diameter" for the first plunger; by deleting "a" with respect to the first shoulder for the second cylindrical member and by adding element the "exciter".

Claim 7 has been amended by adding element the "exciter".

Claim 9 has been amended to adding element the "exciter".

The abstract has been amended to conform to the current 150 word limitation.

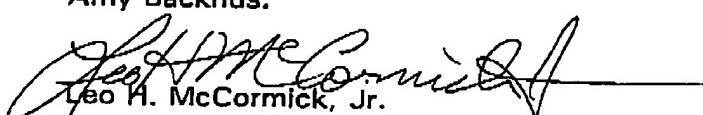

No new matter has been added by the current amendment and from a cursory review of the amended claims it should be evident that the amendment provide a clearer statement of the present invention.

This application was allowed by the first office action and this is the first opportunity applicant has had to present the changes.

In conclusion, applicant requests that this proposed amendment be entered and the application be sent to issuance with these changes.

Respectively Submitted

Amy Backhus.
